Mr. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
Division of Oil, Gas & Mining

BUILDING MAIL

Dear Mr. Hedberg:

I am in receipt of a copy of your letter of August 27, 1996, advising Russell C. Feller that you are unable to process a recent Notice of Intent regarding Section 11, T43S, R16W.

The Trust Lands Administration is not presently issuing mineral leases for common varieties of stone, except limestone. Common varieties of building stone, including granites, basalts, lava aggregates, sandstones, shales and etc. may be purchased from Trust lands through the issuance of a short term permit. Mr. Feller recently submitted a mineral lease application for the subject lands but the application was not approved since the lands are not open for leasing. Mr. Feller may yet submit an application to purchase building stone materials from the lands, in which case an NOI will be required prior to the commencement of mining.

Thank you for keeping me advised of the actions taken by DOGM with respect to Trust lands.

Sincerely,

John T. Blake
Mineral Resources Specialist
